

## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

Since we just finished Public School Week and a large number of local citizens took the time to visit our schools, plus the fact that I ran across a very refreshing article in the Sunday Dallas Morning News by a Dr. Max Rafferty on education, we will devote this space to the subject.

We are not sure who this Dr. Rafferty is or how he ranks in the education circles but after reading his article we would vote for him for something or other. Whoever he is, he is qualified enough for his views to be carried in the Los Angeles Times and the Dallas Morning News so we would suspect that he is worth listening to. Besides, I like what he has to say and that qualifies him for me and you will just have to judge for yourself.

Dr. Rafferty is of the opinion that it is time to weed out some of the obnoxious weeds which masquerade as sweet-smelling violets in the garden of education.

Among the pious platitudes and corny clichés that should be weeded according to the Doctor are some that he says are very dear to some members of his profession.

The first of these is that "Education has become too important to be left any longer to the states and to the local school districts. The energizing influence and infinitely richer resources of the federal government must be brought increasing into the educational picture."

Dr. Rafferty says that in the long run this just boils down to this: "Big Brother wants Junior. And the younger the better."

He says that local grassroots education needs to be energized, modernized and personalized but it does not need to be subsidized, nepotized and zombieized, at least not by Uncle Sam in his favorite Great Society role as Mr. Fix-it.

The second thing he says that needs to be weeded out is that "A racially integrated school is a better school than a segregated school." Dr. Rafferty believes that this is not necessarily so. If two schools are equal in everything else then the integrated school would be the better but otherwise a bad school is still bad and a good school is still good.

He goes on to knock down another pet theory that "The school exists to make a child an adjusted, accepted member of his peer group."

"Nope," he says, "As I've said somewhere before, the school exists to make him learned. Period."

And the fourth one is one that we have heard a little of in this area, "The solution to present day school problems lies in constructing huge, elaborately planned educational parks or plazas in centralized locations and bussing the children to them from miles away."

"Certainly. That is, if you want your kids to go to school in a far-off educational factory where they will be schooled scientifically by trained and kindly experts without any ignorant, bumbling interference from little old you," the man says.

"But," he goes on, "If you are carpically smallminded enough to want Susie to get her schooling where you can have some kind of a say in what that schooling is going to be — if you hanker to visit the teacher once in a while, or even if you just want to be able to get hold of Susie fast in case of an emergency — then you'd better hang onto your humdrum little neighborhood school despite the fact that it's rapidly getting to be a naughty word in some sociological circles."

"And if one of our educational bureaucrats, resolutely sent among us from his Washington superiors to convert the heathen out in the hinterland, tells you with that air of insufferable condescension which is the badge and hallmark of his tribe that the neighborhood school is relatively inefficient compared to his precious educational 'plaza.' Inform him that a democracy is relatively inefficient, too, compared to any well-run ant hill, beehive or Hitlerian dictatorship."

"Then," the Doctor concludes, "Look him straight in the eye and ask, 'So what?'"

## Rolling Plains Cotton Growers Plan Annual Meeting In Stamford Mar. 23

A meeting of importance to all Rolling Plains cotton farmers will be held in the Stamford High School Auditorium on Thursday, Mar. 23, beginning at 2 p. m., according to Charles Stenholm, executive vice president. This will be the annual members' meeting of the Rolling Plains Cotton Growers, Inc. at which meeting such subjects as mill

needs for short staple cotton, mechanical classing and the economic outlook for the cotton industry will be discussed.

Dr. M. K. Horne, head Economist for the National Cotton Council, will give facts and figures on the economic situation of cotton and what can be said for the future of the industry.

Jim Parker with American Textile Manufacturers Institute of Charlotte, N. C., will speak on "Cotton Fiber Properties and Mill Requirements." This talk should educate the farmer as to the quality cotton the mills are wanting and what he must do to meet these requirements and to grow cotton for the mills, not for the loan.

Carl Cox of the Cotton Economic Research Committee of Texas will bring the farmers up to date on the mechanical classing of cotton and new developments in cotton fibers.

There has been a great deal of interest in the mechanical classing of cotton, the mill requirements and the economic outlook of the cotton industry so this type program should be of utmost importance to every cotton farmer who wants to raise cotton in the future, according to Stenholm.

## By MRS. ELMER JOINER

Enough has been said about the weather to fill a book, but we all want to get in our two bits worth. When the middle of March comes without any rain, it is getting to look bad. This Monday morning you could smell dampness. Where it came from is a mystery, but that is an old sign of rain, and when we get as desperate as we are now we look for any kind of sign.

Word was received this morning that a dear cousin, Mrs. Alton Sealy, had passed away Sunday night in Hendrick Hospital in Abilene, after a long illness. Mrs. Sealy was the former Evelyn Treadwell, daughter of the T. J. Treadwells. She is survived

by her husband and one daughter, Mrs. Wayne Dietrich, of Indiana.

Mrs. I. B. Ray is recovering very nicely in Hendrick Hospital from a very serious surgery about ten days ago. It seems that she had a cyst on her pituitary gland, under her brain, which was a delicate operation, but she has done even better than the doctors expected.

Mr. and Mrs. Henry went to Rotan Friday to visit her sister, Mr. and Mrs. Obie Wright. Mr. Wright arrived home that afternoon from Hendrick Hospital where he spent three weeks recovering from bladder surgery. Mrs. Henry reported him as feeling good after his trip home and really enjoying a home cooked meal.

Mr. and Mrs. Fred Rosenbaum went to Pampa Friday, returning Sunday.

Mr. and Mrs. W. C. Eoff went to Temple to the Scott and White Hospital last week for Mr. Eoff to get a check-up.

The Elmer Joiners enjoyed a short visit Saturday afternoon with Mr. and Mrs. Fletcher Stark of Crosbyton. Mr. Stark is sheriff of Crosby County, being the officer that was so very seriously wounded two years ago by a fifteen year old Latin-American youth. He has had quite a battle but at present looks like the picture of health, looking like a typical sheriff, since he is quite a bit over six feet tall. The Stark family once lived in the Hitson community, long years ago, and are life long friends of the Joiner family.

The Winson Grays and Woodrow Goodwins went to Sweetwater Sunday afternoon to see the snakes. With all of the snake hunts taking place it should cut down on the snake population. That is one thing that could become extinct as for as most people are concerned. Having lived six years in Yorkum County, back in the depression days, we learned to live with the rattlesnakes. Hardly a day passed that one wasn't sighted, you, as well as your stock, learned to smell them. Some people smile when you tell them that, but try living among them and you will find it to be a fact.

Mr. Ralph Goodwin, of Eastland, spent Sunday night with his brother, the Woodrow Goodwins.

Was so wonderful Sunday afternoon to have Mrs. Lois Hampton of Crestview Nursing Home of Abilene to come for a visit, her first since her illness three years ago. Mr. and Mrs. R. E. Ray, her brother in Anson, brought her. They went to Hamlin to visit with the Johnnie Agnews. Mrs. Hampton looks and feels good.

Mr. Thomas Ingram, Petersburg, nephew of the E. A. Henrys, visited one day last week with them.

Mrs. Lorena Kee, who is staying with us, had a nice visit last Tuesday with Mr. and Mrs. J. A. Morris. They were neighbors in the Neinda community for years. Since I believe in giving flowers to the living, will say that Mrs. Morris was an angel of mercy during the long illness of her mother, Mrs. A. S. Joiner.

## How Precious OUR CHILDREN

In telling us of the heritage of the servants of the Lord, the prophet Isaiah says, "And all thy children shall be taught of the Lord; and great shall be the peace of thy children." Isaiah 54:13. We want our children to be taught the ways of love for God, for their neighbor, and for their fellow man. We know that if they are educated in the ways of love, great will be their peace and happiness, creativeness, and productivity.

What other agency is assigned by our Lord the task of teaching love of God and man than the church? Take your children to church this Sunday and claim His promises.

MAY THIS MESSAGE BE AN INSPIRATION TO MANY IS THE SINCERE DESIRE OF THE FOLLOWING INDIVIDUALS AND BUSINESSES OF HAMLIN.

## Neinda Philosopher Plans to Do His Part To Keep Down the High Cost of Civilization

Editor's note: The Neinda Philosopher on his Johnson Grass farm on Route One gets snowed under by figures this week, his letter indicates.  
Dear editor:

Two or three weeks ago I found a farm magazine out here on this Johnson grass farm, you know, most farm magazines are edited by city people in big cities and I've often wondered why some enterprising farmers don't start publishing a magazine out in the country designed to advise city people how to operate, at any rate, there was an article in this magazine that said a survey has found that weeds are costing

American agriculture approximately three billion dollars a year.

I didn't pay too much attention to this, I don't know what my weeds are costing me but I know what it would cost me to get rid of them and I don't see any point in adding to the three billion and being tired to boot, but a few days later I read in a newspaper that crime in this country is costing an estimated 20 billion dollars a year, counting what the criminals steal, what it costs to try to catch them, to try them, to pay the salaries of the Supreme Court which lets them off, to head the others off, to protect the public, etc.

### Joint Services for Father, Son Held

Joint funeral services were held in Bryan for Arthur Colford Sr., and Dan M. Colford, 33, father and brother of Mrs. Raymond Johnson. The elder Mr. Colford died of a heart attack upon hearing of his son's unexpected death in Oakland, Calif.

Mrs. Johnson returned home this week. Services were held in a Baptist Church at Bryan Mar. 5.

Max Brown, pastor of the First Baptist Church of Hamlin; a representative from the Stamford Chamber of Commerce; Fern Hodge, District Home Demonstration Agent of Vernon; Mrs. T. E. Hodges, State Treasurer; Mrs. Bill Hardy, District III Director; Mrs. H. A. Haynes, Jones County THDA Chairman; and Mrs. Karl Bonneaux, Jones County Home Demonstration Council Chairman.

Jones County will be in charge of the special music.

In the afternoon different counties will give reports of the different THDA Committees.

### HOW TO TREAT KIDNEY DANGER SIGNALS

Light a cigarette, then hold the match a few inches above the smoke. Notice how the smoke is consumed by the flame? Same thing happens when you cook in a gas broiler. There's no smoke because the flame

## Area Farm and Ranch News

By Don Elmore

Well I hope by Thursday morning when this paper is for sale it has rained again. I sure have phoned in for one.

The wheat is looking pretty good in spots, but ~~not~~ in other spots it sure doesn't. I wonder how long it will wait on a rain.

The Riding Club is making progress this year. Billy McIlwain has gathered up about 30 calves for roping. T. W. has set dates for the All Girls Rodeo and Amateur Rodeo. The All Girls rodeo will be May 6. With an afternoon and evening show the same day.

Then in June on the 8, 9, and 10 we will have the Amateur Rodeo. This is a little early but thought maybe you should be planning now to attend. We plan to have steer riding and cow milking for the girls along with their other sissy events, so it should be a crowd pleaser.

Well, think positive for rain and maybe it will happen.
